

DE-CARBON

Fuel System Service

Now Every Automotive Service Centre can afford to carry out Carbon Removal Servicing to their customers vehicles and increase work shop profits

Why pay for costly imported models from the U.S.? When you can have a high quality DE-CARBON carbon removal, and fuel system servicing machine which is manufactured in Australia and fully supported Want to make more dollars? Keep customers coming back!

Do your customers complain of:

- Poor Driveability?
- Poor Fuel Economy?
- Rough Idle?
- Hesitations
- Lack of Power?
- Hard Starting?
- Flat Spots
- Excessive Emissions?

Decarbon restores original power, its much cheaper than removing injectors, Saves your customers money, and helps save the planet.

Using De-Carbons high quality profit centre, a complete on car fuel system cleaning process, and a range of diagnostic checks are performed with amazing results.

The system is suitable for EFI, Carburettor and Diesel engines, in fact, it is totally vehicle non-specific and with the extensive range of snap lock connectors, just about about any late and early model of car, truck, boat, motorcycle can be serviced.

"Give your customers back the car they originally bought"

SMOKE MACHINE

Locate leaks in minutes, reduce diagnostic time, improve your profits using the very latest leak testing technology. The Smokemachine generates a thick, long lasting smoke from into the system you want to test, the smoke quickly exits wherever there is a leak.

- All tests performed with the Engine OFF
- Saves hours of diagnostic time
- A must for emission related faults
- Finds leaks in minutes
- 100% effective
- Portable 12 Volt operation

The best tool for any workshop !

AIR:FUEL RATIO

Lambda Meter

VANE AFR-806 makes easy work of optimising the performance of an engine. An ideal diagnostic aid to fast tuning. Displays the Air :Fuel ratio and/or Lambda for petrol, alcohol, L.P.G. and diesel fuel. Mounts on the windscreen or dashboard for road or Dyno testing.

- Easy to read display
- Displays the Air: Fuel Ratio for Petrol (leaded and unleaded), alcohol, L.P.G. and Diesel fuel.
- Mounts on windscreen or dashboard for road / Dynotesting.
- Measures straight from the tailpipe
- Instantaneous results
- Plugs into lighter socket or across the battery.

GAS ANALYSER

Protech Gas Analyser is a infrared 4 or 5 Gas Analyser and is a must for any emissions test. Complying with O.I.M.L. class II standard for instruments for measuring vehicle exhaust emissions, the Protech Flux 2000-4 Multifunction Gas Analyser is an affordable necessity in every workshop!

- CO (Carbon Monoxide), HC (Hydrocarbons), CO₂ (Carbon Dioxide), O₂ (Oxygen), LAMBDA and AFR and Co Correction
- Size: 286mm wide x 495mm deep x 185mm high;
- Weight: 12kg.

- Options
- Printer
- R.P.M. measurement 2 / 4 Stroke;
- RS-232 standard interface;
- Personalisation of print out;
- Oil temperature probe
- No/Nox Kit

OB91 DATASCAN

Equus 590518 Professional Digital Advance Timing Light Inductive Digital Advance Timing Light

The D.I.S. Timing Light works on all 12 volt petrol engines with conventional or distributorless ignition systems. It uses a heavy duty metal inductive pickup clamp for fast and reliable hook up.

Equus 590534 Advance Timing Light

The D.I.S. Timing Light works on all 12 volt petrol engines with conventional or distributorless ignition systems.
